

## IT Data Administration Analyst

**Central Virginia Health Network** (CVHN) and its affiliates CenVaNet and MedVirginia are Richmond-based companies owned and managed by local physicians and leading not-for-profit hospitals. CVHN and its affiliate companies work directly with our clients (internally and externally) on large initiatives with a strong emphasis on Information Technology and electronic information sharing (Health Information Exchange, Electronic Medical Records systems, etc). CVHN is currently seeking a full time **Data Administration Analyst** with principal responsibility for analysis and configuration assistance of an EMPI (Enterprise Master Person Index) in an Oracle-based technical architecture. Other responsibilities include: match/merge analysis and patient ID reconciliation, systems interfacing, and assistance with MPI data migration.

The successful candidate would have strong IT knowledge and technical skills and at least 3 years prior work experience in an IT position working with MPI (Master Person Index) software, data analysis and programming in a healthcare records exchange environment. Candidates should have experience with HL7 (Health Level Seven)/XML transactions, Oracle RDBMS, and EMPI solutions. Must be able to work independently and show initiative when working with projects. A minimum of a Bachelor's Degree in an IT related field is required.

CVHN offers a full benefit package with excellent paid time off and a competitive salary range. Please submit your resume and cover letter with salary requirements for consideration to [cdancy@cvhn.com](mailto:cdancy@cvhn.com) or by way of fax at 804-665-2400. EOE/AAP employer.
